UJTL Task Development Tool (UTDT)

Mr. Frank Yahner
Joint Staff/J-7

UJTL Task Development Tool

- A small batch/single action (i.e., small blocks of text) tool that handles the submission, authoring, distribution, staffing for comment entry and collection, comment adjudication and final approval functions of UJTL task change requests.

UJTL Task Development Tool

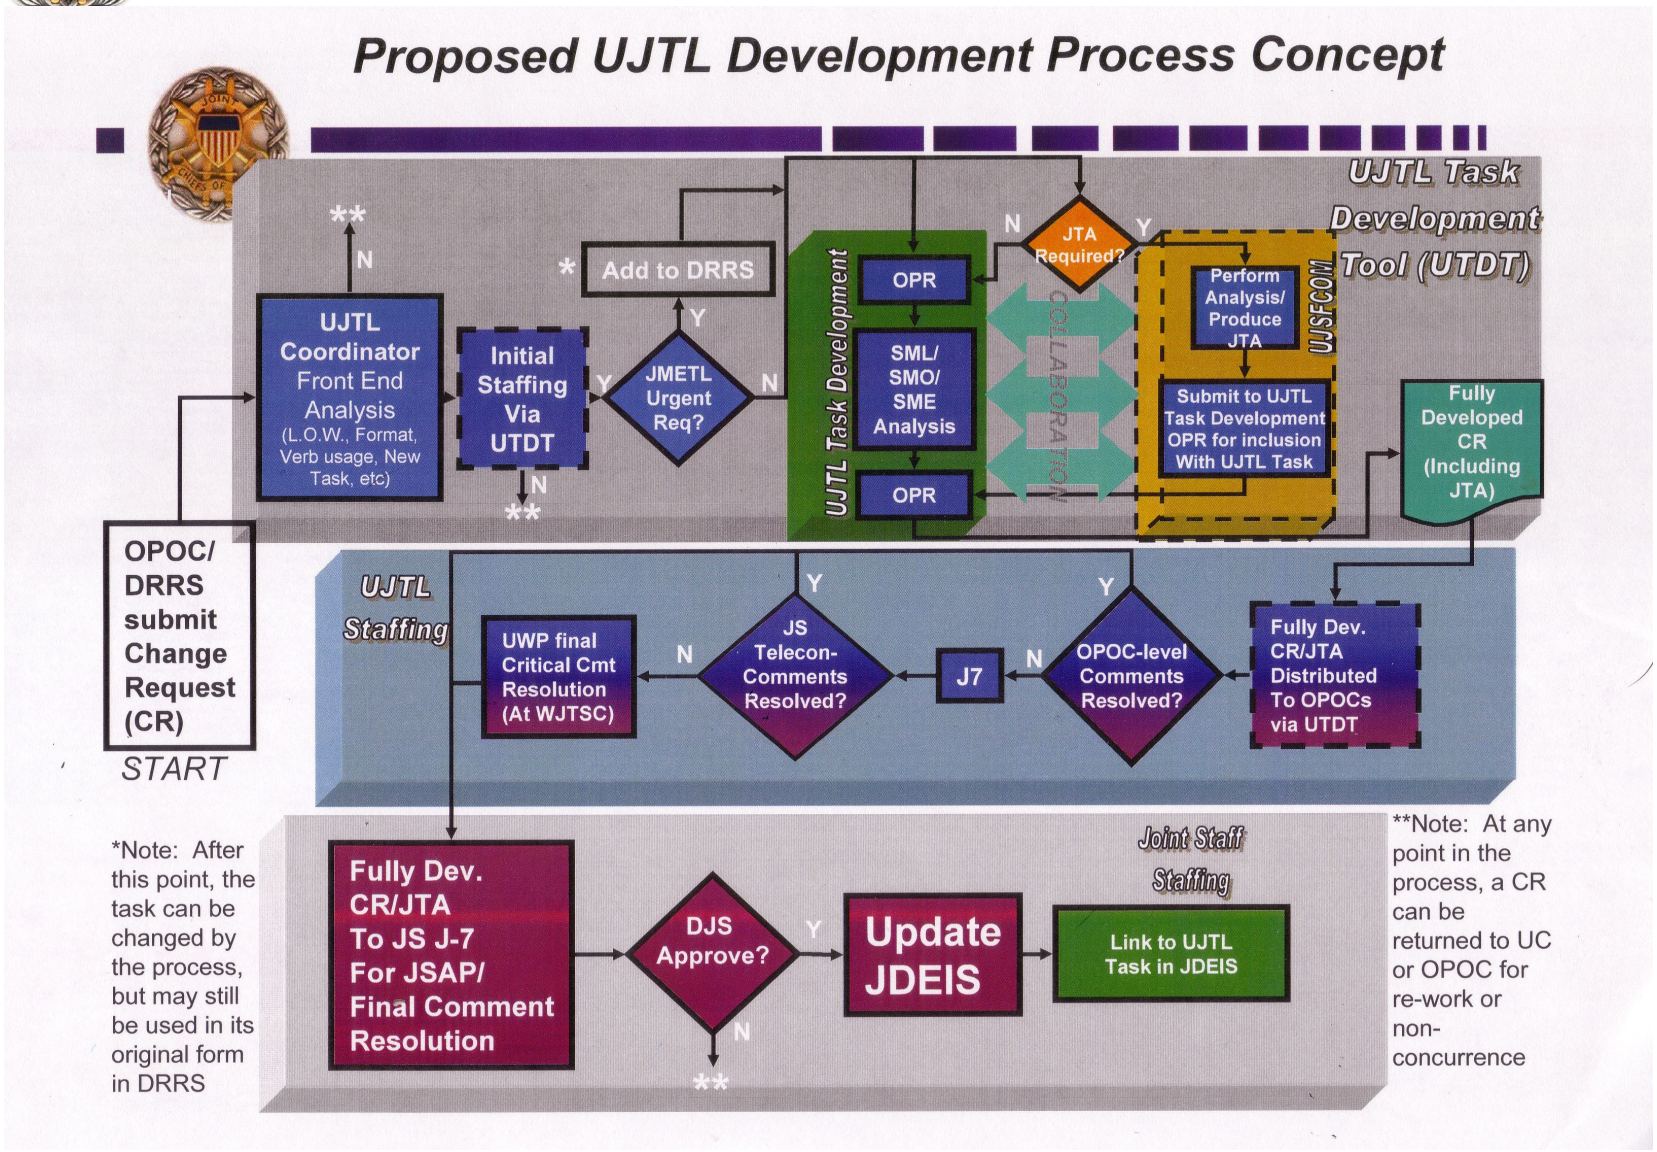
- Architecture of the application is distributed, consisting of a central server repository hosted on Joint Staff servers and a client application viewable with a standard web browser with the Adobe Flash plug-in version 9. It resides on the SIPRNET.

Program Status - Schedule

- UTDT Spiral 2 deployed on SIPRNET. It is being used for change request coordination

- UTDT Spiral 3 will be available for use on the SIPRNET by 15 April 2007.

UJTL Development Process



Proposed UJTL Development Process Concept
UJTL Task Development Tool (UTDT)
UJTL Coordinator Front End Analysis (L.O.W., Format, Verb usage, New Task, etc)
Initial Staffing Via UTDT
JMETL Urgent Req?
Add to DRRS
UJTL Task Development
OPR
SML/ SMO/ SME Analysis
OPR
COLLABORATION
JTA Required?
UJSFCOM
Perform Analysis/ Produce JTA
Submit to UJTL Task Development OPR for inclusion With UJTL Task
Fully Developed CR (Including JTA)
OPOC/ DRRS submit Change Request (CR)
START
UJTL Staffing
UWP final Critical Cmt Resolution (At WJTSC)
JS Telecon-Comments Resolved?
J7
OPOC-level Comments Resolved?
Fully Dev. CR/JTA Distributed To OPOCs via UTDT
*Note: After this point, the task can be changed by the process, but may still be used in its original form in DRRS
Fully Dev. CR/JTA To JS J-7 For JSAP/ Final Comment Resolution
DJS Approve?
Update JDEIS
Joint Staff Staffing
Link to UJTL Task in JDEIS
**Note: At any point in the process, a CR can be returned to UC or OPOC for re-work or non-concurrence
